ECONOMIC & CULTURAL
DEVELOPMENT

MESSAGE FROM THE **MAYOR**

The City of Vaughan is an economic leader in the Greater Toronto Area and beyond. Small business is the backbone of Vaughan's thriving economy – representing more than 85 per cent of all local job creators. Located in Canada's largest industrial market, our city is rich with talent and has the resources, networks and transportation connections to help businesses of all sizes grow.

Vaughan is home to more than 19,000 businesses that employ more than 227,000 people. While we have experienced a significant shift in how business is being done due to the global pandemic, the City of Vaughan remains committed to supporting our small business community because we understand that our strength lies in their success. Creating the right environment to help professionals unleash their full potential is a top priority.

The City offers invaluable planning advice, access to industry experts, and workshops to help aspiring entrepreneurs and existing business owners through the Economic and Cultural Development department. Since the onset of the pandemic, we innovated, pivoted and transformed service offerings to provide virtual access to business information, resources, training and hands-on assistance to start or grow a business.

In March 2020, I announced the creation of the Vaughan Business Action Plan as part of the City's swift and immediate response to support businesses. It includes a series of measures to safeguard the local economy and protect companies, consumers and citizens. The Vaughan Business Resiliency Plan was launched in June 2020 as an immediate and long-term strategy to help Vaughan's business community build capacity to adapt to the post-pandemic world. I encourage business owners to sign up to be included in the City's Open for Business online directory and visit vaughanbusiness.ca to learn more about how we can support them during these unprecedented times.

Annual events such as the Vaughan Business Expo, Activate!Vaughan Innovation Challenge and the Vaughan Chamber of Commerce Mayor's Luncheon are continuing virtually to encourage collaboration among industry leaders, stakeholders and investors. These networking opportunities remain critical as we continue the important task of city-building while working to reduce the impacts of COVID-19 on our city.

This year marks a decade of growth for the Vaughan Metropolitan Centre (VMC), which continues to be the largest and most ambitious project in the City's history. The heart of our emerging downtown is now home to several transformational transit projects, including the VMC Subway, seven high-rise towers that are now fully occupied, two new commercial office buildings, immersive public art projects, vibrant community event spaces, and many other exciting developments.

Despite the universal challenges presented by COVID-19, Vaughan remains a city of choice.

Our economy is showing signs of resilience. Since 2015, the VMC has attracted more than \$9 billion in economic activity, which is a testament to our ongoing efforts to exceed growth targets in our city's core. A high standard of living, accessible location, exceptional amenities, development opportunities, a subway connection, and so much more position the VMC as one of the best places to live, work and play. Building on this momentum, Vaughan's vision for the future is quickly becoming a reality.

I want to express my warmest and sincerest gratitude and appreciation to our small businesses, which have made significant sacrifices throughout the pandemic to ensure our community's safety and well-being. The Vaughan spirit is ready, resilient and resourceful. We remain focused on the path forward. I am confident that if we continue working together and supporting each other, we will emerge stronger.

Yours sincerely,

Hon. Maurizio Bevilacqua, P.C.

ECONOMIC & CULTURAL DEVELOPMENT
Small Business & Entrepreneurship

The Economic and Cultural Development (ECD) department works to make Vaughan a place where entrepreneurship, business, tourism, art and culture can prosper and grow.

ECD's objectives, as detailed in our 2020-2023 Strategic Business Plan, are to:

- enable a climate for businesses to grow, prosper and create jobs.
- advance economic opportunities and attract new investment.
- enrich Vaughan's communities and economy through public art and cultural development.
- effectively pursue service excellence.

A NEW ECD BRAND FOR AN EVOLVING CITY

In 2020, Economic and Cultural Development launched a family of identity marks. The prominent 'V' icon has three angular blocks representing Vaughan's small, medium and large businesses; enviable transit and roadways; and landmark towers announcing our rapid urbanization. The Vaughan Metropolitan Centre and Vaughan Enterprise Zone are represented by the same icon but in distinct colours. Tourism Vaughan has a complementary but unique icon.

MAKING VAUGHAN A GREAT PLACE TO **LIVE, WORK AND VISIT**

Launched on Jan. 1, 2020, Tourism Vaughan is the official destination marketing organization (DMO) for the city of Vaughan with the mission to market and develop Vaughan as a destination for tourists and business travellers.

SUPPORTING VAUGHAN'S ECONOMY TOGETHER

A City-owned corporation, Tourism Vaughan is supported through the City of Vaughan's Economic and Cultural Development (ECD) department and supports the 2020-2023 ECD Strategic Business Plan through the Tourism Vaughan 2020 Business Plan - focused on supporting Vaughan's tourism industry.

A TOURISM BRAND FULL OF VIBRANT ENERGY

Tourism Vaughan revealed its first identity mark in 2020. It is part of the same family as the Economic and Cultural Development visual identity, but has a unique "V" icon. Tourism Vaughan's icon has two angular blocks with a diamond in the center. The diamond represents the high quality of the city while the blocks evoke a spotlight. Together, they look like a person celebrating with their arms up.

REGIONAL SUPPLY CHAIN PARTNERSHIP

During the first wave of the pandemic, the Economic and Cultural Development department brought together Supply Chain Canada, York Region, and the Cities of Markham, Richmond Hill and Vaughan to study the impact of COVID-19 on manufacturing supply chains and gather best practices to prepare for future supply chain disruptions. Upon completion in March 2021, the study will provide actionable recommendations in the form of a toolkit for businesses.

All aspects of this program were vital to the digital boost needed for my company. It helped me plan and forecast during the pandemic and to create realistic benchmarks, and also plan strategically while gaining more knowledge in areas like digital marketing. The team in charge of this program was very helpful and resourceful and helped me every step of the way in answering questions and providing directions on next steps.
